Pullboy Z Waste Bin - to suit Tandembox - 450mm - 58L (2 X 29L)

Variant code: ABS827462.85

Pullboy Z Integrated Recycling Bin 450mm Door 58L (2 x 29L)

The Wesco Pullboy Z in-cupboard waste bin system offers the ultimate range of recycling 'built in bins' for kitchens, workplaces and other applications.

The NEW Pullboy Z Easy, has a clean and sleek frame throughout removing those nooks and crannies that previously were hard to clean. Along with new bin inserts with strong and sturdy handles and a great range of capacities suitable for dividing general and recyclable waste

Features:
This 58 Litre version is made up to 2 x 29L plastic inner bins with sturdy plastic handles, making cleaning and removal of waste easy. It is suitable for 450mm wide cabinets based on 16-19 mm thick carcass walls.

The Pullboy Z Built-In recycling bin needs to be mounted within a Blum Tandembox Antaro drawer, included are the fittings for this system that allow it to be mounted to a slab door. This drawer system incorporates the soft close functionality within its runners, making for a smooth-running bin system that closes silently and effortlessly.

Please Note: This waste bin system requires the addition of a 450 mm wide Blum Tandembox drawer for it to be installed.

Operation: The Pullboy Z bin system is mounted to the cabinet door, as the door is pulled out the bin compartments come out simultaneously. There is an odour trap lid that sits across the complete bin system to prevent smells from escaping.

This Pullboy-Z comprises:

1 x Steel Frame
2 x 29L Plastic Inner Bins Light Grey with Double Plastic Handles
1 x Steel Odour Trap Lid
1 x Fixing Bracket Set for Slab Doors
