

Recessed Cabinet Hanger, No Holes in Cabinet to Adjust – Each

Variant code: AWH02000

The cabinet hanger for mounting on side, adjustable in three directions, height, depth, and lateral. Height adjustment is performed by turning with allen key 4 from above. Depth adjustment is achieved naturally from the particular shape of the hook that always ensures the shortest distance from the wall. Lateral adjustment is achieved by moving the furniture manually. These cabinet hangers are symmetrical. Equipped with anti-release device. The actual capacity is given by the furniture, hardware and wall set. 800 N capacity. Sold Each.
