

Adaptor Sleeve – 5mm to 8mm Spindle Converter – 30mm

Variant code: ZAS50S

The **Adaptor Sleeve – 5mm to 8mm Spindle Converter** is a simple and practical solution for converting a **5mm spindle into an 8mm spindle**, allowing compatibility between different door furniture and locking systems. Manufactured from durable plastic, this adaptor sleeve is specifically designed for use with **DIN lock spindles**, making it ideal for repair, maintenance and retrofit applications.

Measuring **30mm in length**, the adaptor sleeve provides a secure fit while ensuring smooth and reliable spindle operation. It offers a quick and cost-effective way to adapt existing hardware without replacing the lock or door furniture, helping installers save time during installation or maintenance work.

Suitable for residential, commercial and public buildings, the Adaptor Sleeve is an essential door hardware accessory for ensuring compatibility between lock mechanisms and lever handles using different spindle sizes.

Product Features

- Converts a 5mm spindle to an 8mm spindle
- 30mm overall length
- Designed for DIN lock spindles
- Durable plastic construction
- Lightweight and corrosion resistant
- Provides a secure spindle fit
- Quick and easy to install
- Ideal for repair, maintenance and retrofit projects

Product Benefits

- **Allows 5mm spindles to be used with 8mm door furniture**
- **Provides a simple and cost-effective alternative to replacing locks or handles**
- **Durable plastic construction offers reliable everyday performance**
- Designed specifically for use with DIN

- lock spindles
- Quick installation reduces fitting time
- Helps maintain compatibility across door hardware systems
- Lightweight, corrosion-resistant material requires no maintenance
- Suitable for both new installations and replacement applications

Technical Characteristics

- Product Type: Adaptor Sleeve
- Function: Converts 5mm spindle to 8mm spindle
- Length: 30mm
- Material: Plastic
- Compatible With: DIN Lock Spindles
- Installation: Push Fit
- Application: Door Handle Spindle Conversion

Applications

The **Adaptor Sleeve – 5mm to 8mm Spindle Converter** is ideal for **residential homes, offices, schools, hospitals, hotels, commercial premises and public buildings**. It is designed for use when fitting **door handles, lever furniture and hardware requiring an 8mm spindle to locks fitted with a 5mm DIN spindle**, providing a quick, reliable and economical compatibility solution.
