

## Ring Cover For Refuse Box – Internal 58mm – Polished Brass

Variant code: AN-DH005-GP

**Refuse Box Ring Cover** is a premium decorative trim ring designed to provide a neat, professional finish around refuse box openings in worktops, counters and furniture. Manufactured with a luxurious **polished brass finish**, the ring cover features a **58mm internal diameter** and is ideal for concealing cut edges while enhancing the overall appearance of waste disposal openings. Its elegant design complements both traditional and contemporary interiors.

Manufactured from high-quality materials for durability and long-lasting performance, the ring cover protects the edge of the refuse opening from everyday wear while creating a smooth, attractive finish. The polished brass surface adds a premium architectural touch, making it suitable for high-end residential kitchens, hospitality environments and commercial furniture installations.

Easy to install, the Sugatsune Refuse Box Ring Cover provides a simple yet effective finishing solution for integrated refuse systems, maintaining a clean appearance while helping to protect surrounding work surfaces.
