

Round Multipurpose Lid inc Damper – 170 x146 x 50mm – Satin Stainless Steel

Variant code: AD-GD015-HL

Round Multipurpose Lid with Soft Close Damper is a premium recessed access lid designed to provide discreet, controlled access to concealed services, waste chutes, cable ports and utility openings. Manufactured in a **satin stainless steel finish**, this elegant lid incorporates an integrated **soft-close damper** that delivers smooth, quiet operation while helping prevent slamming and protecting surrounding surfaces. Measuring **170mm x 146mm x 50mm**, it is ideal for commercial, hospitality and residential installations requiring both functionality and refined aesthetics.

Constructed from high-quality stainless steel, the lid offers excellent durability and corrosion resistance, making it suitable for demanding environments. The integrated damper provides a controlled closing action, improving user safety while reducing noise and wear. Its flush, low-profile design creates a neat appearance that blends seamlessly into worktops, counters and furniture, making it ideal where concealed access is preferred.

Designed for architects, cabinet makers and commercial fit-out specialists, the Sugatsune Round Multipurpose Lid combines robust construction with premium soft-close performance. It offers a practical and stylish solution for applications requiring easy access while maintaining a clean, contemporary finish.
