Salice Air Square Section for Glass for Aluminium Door Profile 26mm - 3m

Variant code: DEL6LP300P

The **Salice Air Aluminium Door Profile for Glass** is a premium-quality square aluminium section designed for the manufacture of contemporary glass cabinet doors. Engineered specifically for use with the **Salice Air concealed hinge system**, this 26mm wide profile provides a strong yet elegant frame for 4mm glass panels, creating a clean, minimalist appearance that is ideal for modern furniture applications.

Manufactured from high-quality aluminium, the profile offers excellent rigidity while maintaining a slim architectural design. Designed to accept **4mm glass inserts**, it forms part of the Salice Air Aluminium Door Profile range and is supplied in convenient **3 metre lengths**, allowing it to be cut accurately to suit individual cabinet door dimensions.

Perfect for premium residential and commercial furniture, the Salice Air Aluminium Door Profile combines exceptional Italian engineering with a refined aesthetic, making it an ideal choice for kitchens, wardrobes, display cabinets and bespoke joinery projects.
