

Salice Air Holders for Arm – Nickel Plate

Variant code: SELX77X9-NI

the **Salice Air Holders for Arm** in an elegant **Nickel Plate** finish. These innovative hardware components are designed to provide **smooth, controlled, and effortless** movement for your cabinet doors, enhancing both the look and **longevity** of your furniture. Perfect for **modern and high-end cabinetry**, the Salice Air Holders offer a **premium solution** for comfortable and reliable door operation.

Key Features & Benefits:

- **Effortless Operation:** Say goodbye to slamming! The Salice Air system ensures a **gentle and fluid opening and closing** motion, providing a truly **seamless user experience**.
- **Superior Control & Stability:** Engineered for **optimal performance**, these holders provide **consistent and secure support** for lift-up or parallel-opening doors, preventing unintended movement and ensuring **long-term reliability**.
- **Durable, High-Quality Finish:** Featuring a stunning **Nickel Plate** finish, the holders are not only **aesthetically pleasing** but also highly **resistant to corrosion and wear**, guaranteeing **lasting brilliance** in any environment.
- **Sleek, Concealed Design:** The **compact and innovative** design allows the mechanism to be **discreetly integrated** into the cabinet structure, maintaining the **clean lines and minimalist appeal** of your furniture.
- **Versatile Application:** Ideal for **kitchen cabinets, living room furniture, office storage**, and more. The Air Holders are a **versatile hardware choice** for various door types and weights.
- **Easy Installation:** Designed for **straightforward mounting**, making them a favourite among both **DIY enthusiasts and professional cabinet makers**.
