Salice Conecta Hidden Soft Close 94° Hinge, For Aluminium-framed Doors - Full Overlay - Nickel

Variant code: CQZ3KE9XXV

The **Salice Conecta Hidden Soft Close 94° Hinge** is a revolutionary concealed hinge system designed specifically for **full overlay aluminium-framed cabinet doors**. Completely hidden within the cabinet side and door, the innovative Conecta hinge creates a clean, uninterrupted appearance while delivering smooth, precise and reliable door movement. Its concealed design makes it the ideal choice for premium contemporary furniture where minimalist styling and high-performance hardware are essential.

Engineered by Salice, the Conecta hinge combines compact dimensions with exceptional strength, allowing it to operate large and heavy aluminium-framed doors with outstanding precision and fluidity. The integrated **soft close mechanism** provides controlled, quiet closing, while the **rapid fixing system** enables fast installation and easy removal of the door when required. Featuring a **94° opening angle**, a **24mm deep metal cup** and comprehensive three-way adjustment, the hinge allows installers to achieve perfect door alignment with ease.

Available in elegant **Nickel** and **Titanium** finishes, the Salice Conecta Hidden Soft Close Hinge delivers premium Italian engineering, exceptional durability and virtually invisible installation for high-end residential and commercial furniture applications.
