

Salice Exedra Pocket Hinge & Slide System Side Panel Connector

Variant code: YE55/002

The **Salice Exedra Pocket Hinge & Slide System Side Panel Connector** is a genuine replacement and installation component designed for use with the **Salice Exedra Pocket Door System**. Specifically engineered for **screw-fixed single door configurations**, this connector securely joins the pocket door mechanism to the cabinet side panel, ensuring precise alignment and dependable operation.

Designed for cabinets with an **overall external depth between 650mm and 900mm**, the side panel connector forms an integral part of the Exedra system, providing a secure fixing point that contributes to the smooth sliding and concealed pocket door functionality for which Salice is renowned.

Manufactured to Salice's exacting quality standards, this connector offers reliable long-term performance and is ideal for new furniture production, bespoke joinery and replacement installations where genuine Exedra components are required.

Product Features

- Genuine Salice Exedra side panel connector
- Designed for the Salice Exedra Pocket Door System
- Suitable for single door screw-fixed versions
- Compatible with cabinet external depths from 650mm to 900mm
- Provides secure connection between the mechanism and cabinet side panel
- Precision engineered for accurate alignment
- Durable construction for long-term performance
- Designed for straightforward installation
- Suitable for new installations and replacement applications

Product Benefits

- Provides a secure fixing point for reliable Exedra pocket door operation
- Ensures accurate alignment for smooth sliding door performance
- Designed specifically for genuine Salice Exedra systems for guaranteed compatibility
- Supports stable installation in cabinets with 650–900mm external depth
- Durable construction delivers dependable long-term reliability
- Simple screw-fixed installation helps reduce fitting time
- Ideal for furniture manufacture, refurbishment and repairs
- Manufactured by Salice for premium quality and precision engineering

Technical Characteristics

- Product Type: Side Panel Connector
- Brand: Salice
- Series: Exedra
- Compatibility: Salice Exedra Pocket Hinge & Slide System
- Door Configuration: Single Door
- Fixing Method: Screw Fixed
- Compatible Cabinet External Depth: 650mm – 900mm
- Application: Pocket Door Side Panel Connection

Applications

The **Salice Exedra Pocket Hinge & Slide System Side Panel Connector** is designed for use in **kitchen pantry units, wardrobes, home office furniture, media units, storage cabinets, retail displays and bespoke joinery** fitted with compatible **Salice Exedra single pocket door systems**. It provides the secure side panel connection required for smooth, reliable concealed door operation in premium residential and commercial furniture installations.

Property	Value
