

Salice Exedra Pocket Hinge & Slide System – 2300mm x 650mm – Right Hand

Variant code: EXEDRA.RH.2300.650

The **Salice Exedra Pocket Hinge & Slide System** is an innovative pocket door solution that combines sophisticated engineering with refined aesthetics to create a premium furniture experience. Designed for cabinets measuring **2300mm high x 650mm deep**, the Exedra system enables doors to open smoothly before sliding discreetly into dedicated side compartments, leaving the cabinet completely accessible without doors projecting into the room.

Featuring Salice's advanced deceleration technology, Exedra delivers a **smooth, fluent, uniform and virtually noiseless movement** regardless of the speed at which the door is opened or inserted into the pocket. The system may also be equipped with an optional **Salice Smove damper** for enhanced decelerating performance, providing an exceptionally refined opening and closing experience.

Suitable for premium residential and commercial furniture, the Exedra Pocket Hinge & Slide System is ideal for kitchens, living rooms, wardrobes and office storage, offering elegant concealment, outstanding accessibility and the renowned quality of Salice Italian engineering.

Product Features

- Genuine Salice Exedra Pocket Hinge & Slide System
- Designed for cabinets measuring 2300mm high x 650mm deep
- Smooth pocket door opening with concealed sliding action
- Advanced deceleration for fluent, uniform and quiet movement
- Compatible with optional Salice Smove damper
