

Salice Exedra2 Smart – Bi-fold Pocket Door – Left Hand

Variant code: YEL2224E6550149

The **Salice Exedra2 Smart Bi-Fold Pocket Door System** is an innovative double pocket door solution that combines elegant bi-fold door movement with concealed pocket storage, delivering exceptional space optimisation for premium furniture. Designed with **cam-assisted door extraction** and **cushioned door insertion**, the Exedra2 Smart system provides smooth, controlled and quiet operation while allowing doors to fold neatly away inside the cabinet.

Unlike conventional pocket door systems, Exedra2 Smart offers exceptional installation flexibility and does not require floor mounting, making it ideal for raised furniture installations such as cupboards, chests of drawers and elevated storage units. The independent left- and right-hand mechanisms can be ordered separately or installed together as a matched pair for double-door applications, offering outstanding versatility for bespoke furniture designs.

Designed for modern residential and commercial interiors, the Salice Exedra2 Smart system is ideal for walk-in wardrobes, kitchen larder units, home office furniture and premium storage solutions where smooth operation, precise adjustment and efficient use of space are essential.

Product Features

- Genuine Salice Exedra2 Smart bi-fold pocket door system
- Double pocket door system with cam-assisted door extraction
- Cushioned door insertion for smooth, quiet operation
- Independent left- and right-hand mechanisms
