Salice Magnetic Retaining Catch

Variant code: DP28SN9

The **Salice Magnetic Retaining Catch** is a compact yet highly effective component designed specifically for use with the **Salice Pacta drop-down flap door system**. This genuine Salice accessory provides secure magnetic retention, helping to keep flap doors firmly closed while ensuring smooth and reliable operation. It is particularly suited to handleless furniture incorporating Salice Push-to-Open technology.

Working in conjunction with a compatible **Salice magnetic release device** (sold separately), the retaining catch significantly increases the holding force of the flap door, helping to prevent accidental openings while maintaining effortless push-to-open functionality. Designed for recessed installation, the catch fits into a **15mm diameter x 11mm deep** drilled hole and features an adjustable depth range of **-0.5mm to +2.5mm**, allowing precise alignment for a perfect flush finish.

Manufactured to Salice's renowned Italian engineering standards, the Pacta Magnetic Retaining Catch is the ideal finishing component for premium kitchens, living furniture, office cabinetry and bespoke joinery requiring dependable magnetic retention and clean, minimalist aesthetics.

Product Features

- Genuine Salice Pacta magnetic retaining catch
- Designed for the Salice Pacta drop-down flap door system
- Provides secure magnetic door retention
- Ideal for handleless Push-to-Open furniture
