

## Salice Retaining Round Adjustable Magnetic Catch – ø16.6 mm

**Variant code: DP39XXG**

The retaining catch DP39 is itself magnetic and together with the magnetism of the release device DPM considerably increase (30%) the holding strength of the door against the cabinet side, thus avoiding accidental openings. For the installation it is necessary to drill a hole ø15 mm and 11 mm depth in the door. Depth adjustment from -0.5 mm to +2.5 mm.

### Salice Round Adjustable Magnetic Catch (Ø16.6 mm) ?

Unleash the **clean, minimalist aesthetic** of handle-free furniture with the **premium Italian-engineered** Salice Retaining Round Adjustable Magnetic Catch. Perfectly designed as the essential retaining component for the Salice Push-to-Open system, this small but mighty piece of **cabinet hardware** delivers flawless, silent door closure and reliable performance for your modern home or professional project.

### Key Features & Benefits

- **Precision Adjustment:** The unique adjustable depth feature allows for **precise door alignment**, easily compensating for potential door warping or slight installation variations. Achieve a **perfectly flush cabinet** every time.
- **Strong Magnetic Retention:** The magnetic catch and striker plate combination significantly **increases holding strength**, ensuring your doors, panels, and drawers stay securely closed until a deliberate push initiates the opening mechanism.
- **Seamless Integration for Push-to-Open Systems:** This catch is specifically designed to work seamlessly with the Salice Magnetic Push-to-Open Release Device, creating a **sophisticated, handleless design** for your kitchen, wardrobe, or furniture.

- **Space-Saving Design:** With its compact  $\varnothing 16.6\text{ mm}$  diameter, the catch is easily recessed into the door, providing a **discrete, invisible fitting** that preserves your clean design lines.
- **Durable & Reliable:** Manufactured by the trusted name in furniture mechanisms, Salice, you are guaranteed a **long-lasting, high-quality** component for your most-used cabinetry.

## Ideal For

- **Modern Handleless Kitchen Cabinets**
- **Minimalist Wardrobes and Closets**
- **Sleek Furniture Doors and Drawer Panels**
- **High-End Joinery and Custom Cabinetry Projects**
