

Shropshire Door Knocker – Pewter

Variant code: 45207

Our extensive selection of door knockers suit a variety of doors from timber, composite, upvc and aluminium offering both traditional and contemporary designs.

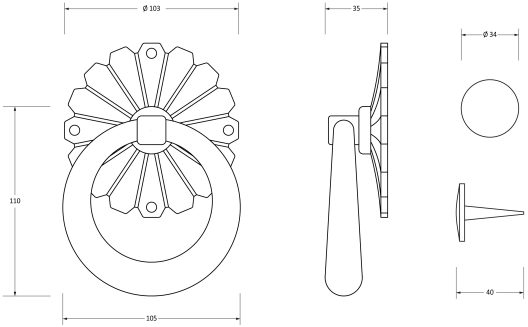

This shropshire door knocker shows a true masterpiece of forging. Drawn from one piece of mild steel bar and bent to form the ring, this highlights every hammer blow by our highly skilled blacksmiths.

Surface fixed to the front of your door.
Supplied with matching SS wood screws.

Our pewter patina finish is forged from a durable base of steel and is a fine example of how our unique manufacturing techniques add further detail to the natural charm of metals. The process by which the contrasting textures of this finish are created results in a rich appearance that sits well in characterful, rustic homes but also offers a contemporary alternative in more modern settings.
