

Solid Brass Cube Edge Pull 50 x 75mm inc Screws – Aged Brass

Variant code: 0085.75.AGB

The **Solid Brass Cube Edge Pull** is a contemporary furniture pull designed for use on **drawers and various door types**. Manufactured from **solid brass**, its simple modern design provides a clean architectural detail that can complement a wide variety of furniture and interior styles.

This version has an overall length of **100mm** and is suitable for **44mm thick profiles**. Its discreet edge-mounted format makes it particularly suitable for furniture applications where a streamlined appearance is preferred, providing a practical gripping point while maintaining clean cabinetry and door lines.

The edge pull is available in a broad selection of **standard and PVD finishes**, allowing it to coordinate with different furniture hardware and interior schemes. The **Aged Brass** option provides a warm, traditional appearance, while other brass, bronze, chrome and nickel finishes are also available. The product has also been **salt spray tested for over 1,000 hours**.

Product Features

- Manufactured from **solid brass**
- Designed for use on **drawers and various door types**
- **Simple, modern edge pull design**
- Overall length of **100mm**
