

Spacer to Suit MLC Non-Magnetic Touch Latch

Variant code: MLC-100-DP5-WT

Spacer for MLC Non-Magnetic Touch Latches is a genuine mounting accessory designed to ensure the correct installation height and alignment of **MLC-100** and **MLC-100DS** non-magnetic touch latches. By providing additional mounting depth where required, the spacer helps achieve smooth and reliable push-to-open operation while simplifying installation across a variety of cabinet designs.

Manufactured from durable engineering-grade material, the spacer fits neatly beneath the touch latch, compensating for differences in cabinet construction or mounting surfaces. It enables precise positioning of the latch mechanism to ensure consistent engagement with the strike plate and dependable day-to-day performance.

Designed as a direct-fit accessory, the spacer is quick and easy to install, making it ideal for both new furniture production and replacement applications. As a genuine Sugatsune component, it provides a perfect fit with compatible MLC touch latches for professional installation results.

Product Features

- Spacer for **MLC-100** and **MLC-100DS** non-magnetic touch latches
- Genuine Sugatsune mounting accessory
- Provides additional mounting depth
- Improves latch alignment and positioning
- Durable engineering-grade construction
- Direct-fit design
- Quick and easy installation
- Suitable for new installations and replacements

Product Benefits

- Ensures correct touch latch positioning
- Improves push-to-open performance
- Helps achieve reliable latch engagement
- Simplifies installation on different cabinet constructions
- Provides a secure and accurate fit
- Durable construction for long service life

Technical Characteristics

- **Product Type:** Touch Latch Spacer
- **Brand:** Sugatsune
- **Compatible Latches:** MLC-100 and MLC-100DS
- **Material:** Engineering-Grade Plastic
- **Installation:** Mounts beneath compatible touch latch
- **Function:** Adjusts mounting height and alignment
- **Application:** Cabinet and Furniture Touch Latch Installation

Applications

Spacer for MLC Non-Magnetic Touch Latches is ideal for **kitchen cabinets, wardrobes, office furniture, display cabinets, retail fixtures, bespoke joinery and commercial furniture** using **MLC-100 or MLC-100DS non-magnetic touch latches**. It provides the correct mounting height for reliable push-to-open operation, ensuring smooth performance and professional installation across a wide range of furniture applications.
