Standard Profile Range Trial Kit inc Clips & Tools

Variant code: CP-06T

Standard Profile Trial Kit is a comprehensive starter kit designed to introduce installers, cabinet makers and manufacturers to the award-winning **Fastmount Standard Profile concealed panel mounting system**. Containing a selection of genuine Fastmount clips together with the essential installation tools, this kit allows users to evaluate the system, develop installation techniques and produce professional concealed panel installations before committing to larger projects.

Carefully assembled to demonstrate the versatility and performance of the Standard Profile range, the trial kit provides everything needed to test clip positioning, installation methods and panel removal procedures. It enables installers to become familiar with the Fastmount concealed fixing system, which allows panels to be removed and refitted repeatedly in any sequence without damaging the clips or surrounding structure. The included installation tools help achieve accurate clip placement while simplifying installation and future servicing.

Ideal for demonstrations, product evaluations and training, the Fastmount Standard Profile Trial Kit provides a practical introduction to one of the industry's leading concealed panel fixing systems. It is suitable for professional use across marine, transport, architectural and commercial interior applications.

Product Features

- Genuine Fastmount Standard Profile Trial Kit
- Includes a selection of Standard Profile clips
- Supplied with essential Fastmount installation tools
- Designed for system evaluation and installation training
- Supports accurate concealed panel installation
- Allows repeated panel removal and refitting
- Professional-quality Fastmount components

- Suitable for demonstrations, testing and project development

Product Benefits

- **Provides everything needed to trial the Fastmount Standard Profile system**
- **Allows installers to learn correct clip installation techniques before full-scale projects**
- **Supports fast, accurate concealed panel installation and removal**
- Reduces installation errors through hands-on evaluation
- Ideal for training, demonstrations and product testing
- Uses genuine Fastmount clips and installation tools
- Helps develop efficient installation methods
- Suitable for professional commercial and marine applications

Technical Characteristics

- Product Type: Trial Kit
- Brand: Fastmount
- System Compatibility: Fastmount Standard Profile Range
- Contents: Assorted Standard Profile Clips and Installation Tools
- Application: System Evaluation, Installation Training and Demonstration
- Panel System: Concealed Removable Panel Mounting

Applications

The **Fastmount Standard Profile Trial Kit** is ideal for **cabinet makers, shopfitters, marine fit-out specialists, transport manufacturers, exhibition contractors, architectural panel installers and commercial joinery professionals**. It provides an effective way to evaluate the **Fastmount Standard Profile concealed fixing system**, enabling users to gain experience with clip installation, panel alignment and repeatable panel removal before moving to full production installations.
