Support Plate to suit Full Overlay Cabinet Damper - Silver

Variant code: ACC-DAM40

Support Plate for Full Overlay Cabinet Damper is a genuine mounting accessory designed specifically for use with the **Sugatsune ACC-DAM Cabinet Damper**. Finished in **silver**, the support plate provides a secure mounting point that enables smooth and reliable soft-close operation on **full overlay swing cabinet doors**. Engineered for precision and durability, it ensures the damper is correctly positioned for consistent performance and long service life.

When installed with the compatible ACC-DAM cabinet damper, the support plate allows cabinet doors to close gently and quietly, reducing slamming and helping to protect cabinet doors, hinges and frames from unnecessary impact. Its robust construction makes it suitable for both residential and commercial furniture applications where premium soft-close performance is required.

Designed for cabinet makers, furniture manufacturers and professional installers, the Sugatsune Support Plate offers quick installation and dependable operation while maintaining a discreet appearance inside the cabinet.
