Blum Tandem Runner - Full Extension - 30KG - 270mm

Variant code: 560H2700C

Blum TANDEM Runner - Full Extension - 30kg is engineered to deliver smooth, stable and fully accessible drawer movement in modern cabinetry. Manufactured by **Blum**, a globally recognised leader in precision cabinet hardware, the TANDEM runner system combines concealed runner technology with high-performance engineering to ensure consistent and reliable drawer operation.

This runner provides **full extension**, allowing the drawer to open completely and giving unrestricted access to the entire drawer interior. This makes it ideal for applications where visibility and accessibility of stored items are essential. The system delivers smooth and controlled running performance, ensuring dependable operation in everyday use.

Designed for installation beneath the drawer, the TANDEM system offers a **concealed runner solution** that maintains a clean and uninterrupted cabinet interior while delivering excellent stability during opening and closing. With a **30kg load capacity**, the runner is suitable for standard drawer applications in both residential and light commercial environments.

Manufactured with a durable **Nickel finish**, the runner integrates seamlessly within Blum drawer systems and maintains compatibility across the wider Blum hardware platform. The system is available in a range of **nominal lengths**, allowing cabinet manufacturers and installers to select the appropriate size to suit cabinet depth while ensuring consistent installation and performance.

Product Features

- **Full extension concealed drawer runner system**
- Smooth and stable drawer movement
- **30kg load capacity** for standard drawer applications
- Concealed under-drawer installation
- Durable **Nickel finish**

SWS HARDWARE

- Available in **multiple nominal runner lengths**

Product Benefits

- Provides **full access to drawer contents**
- Ensures **smooth and reliable drawer operation**
- Maintains a **clean cabinet interior appearance**
- Supports **stable performance during everyday use**
- Suitable for a wide range of cabinetry applications
- Allows **flexibility across different cabinet depths**

Technical Characteristics

- **Concealed under-drawer runner installation**
- Compatible with **Blum TANDEM drawer systems**
- **30kg dynamic load capacity**
- Designed for **precise alignment and smooth running performance**
- Available in **various nominal lengths to suit cabinet depth**

Applications

This runner system is commonly used in **kitchen drawers, bedroom furniture, office storage units and fitted cabinetry** where full access to drawer contents is required. The full extension design improves usability and visibility, while the concealed installation ensures a clean cabinet aesthetic. It is widely specified in **residential and light commercial joinery projects** requiring durability, smooth operation and consistent performance.
