Blum Tandem Runner - Full Extension Tip-on - 30KG - 550mm

Variant code: 560H5500T

Blum TANDEM Runner - Full Extension TIP-ON - 30kg is designed to provide smooth, handle-less drawer operation in modern cabinetry. Manufactured by **Blum**, a globally recognised specialist in precision cabinet hardware, the TANDEM runner system combines concealed runner technology with **TIP-ON mechanical opening support**, allowing drawers to open with a gentle push on the drawer front.

The runner provides **full extension**, enabling the drawer to open completely and allowing clear access to the entire drawer interior. This improves usability and visibility of stored items, making it particularly suitable for kitchens, storage units and furniture where efficient access is important. The **TIP-ON push-to-open mechanism** allows drawers to open without handles, supporting clean, contemporary cabinet designs.

Installed beneath the drawer, the TANDEM system provides a **concealed runner solution** that maintains the clean internal appearance of cabinetry while delivering smooth and stable running performance. Engineered to support loads of up to **30kg**, the runner ensures reliable operation even with frequently used drawers.

Manufactured with a durable **Nickel finish**, the runner integrates seamlessly within Blum cabinet systems and accessories. The system is available in a range of **nominal lengths**, allowing installers and cabinet manufacturers to match the runner size to cabinet depth while maintaining consistent installation and performance.

Product Features

- **Full extension concealed drawer runner system**
- Integrated **TIP-ON push-to-open mechanism**
- **Handle-less drawer operation**
- **30kg load capacity** for standard drawer
