Blum Tandembox Drawer Side - 'M' Height 650mm NL - Nickel - Left & Right Hand

Variant code: 359M6502IV1

Blum Tandembox Drawer Side - 'M' Height 650mm NL - Nickel - Left & Right Hand is designed to form part of the TANDEMBOX drawer system, providing a durable and functional drawer side solution for a wide range of cabinetry applications. Engineered by Blum for precision and reliability, this component supports consistent drawer construction and smooth operation when used within the complete TANDEMBOX system.

The **M height configuration** is suitable for medium-depth drawers, offering a balance between storage capacity and compact design. Designed for **650mm nominal length** applications, this drawer side supports deeper cabinet configurations while maintaining stable and controlled drawer movement. Supplied for **left and right-hand installation**, it ensures correct system assembly and balanced drawer performance.

Finished in durable **Nickel**, the drawer side integrates seamlessly within the TANDEMBOX system and complements a wide range of cabinet interiors. When combined with compatible runners, back panels and fixing components, it forms part of a complete drawer assembly designed for long-term reliability and consistent functionality.

Product Features

- Designed for **Blum TANDEMBOX drawer systems**
- **M height configuration** for medium-depth drawers
- Suitable for **650mm nominal length** applications
- Supplied for **left and right-hand installation**
- Durable **Nickel finish**
- Engineered for strength and structural stability

Product Benefits

- Provides stable and reliable drawer construction

SWS HARDWARE

- Supports smooth and consistent drawer operation
- Enhances usable storage capacity in medium-depth drawers
- Ensures correct system balance and alignment
- Maintains a clean and functional internal appearance
- Suitable for a wide range of cabinetry applications

Technical Characteristics

- Designed for use with **Blum TANDEMBOX runners**
- Requires compatible back panel and fixing components
- Configured for **650mm nominal length drawers**
- Supplied as left and right-hand components
- Precision-manufactured for consistent fitment
- Durable steel construction with Nickel finish

Applications

This drawer side is suitable for kitchen, bedroom and fitted furniture applications where medium-depth and deeper drawer storage is required. It is commonly used in storage drawers, pan drawers and general-purpose cabinetry. The M height configuration provides a practical balance of capacity and accessibility, while the 650mm nominal length makes it suitable for deeper cabinet designs in both residential and commercial environments.
