800mm**

Introducing the TAY II Aluminium Light Profile –  
Sleek, Modern, and Versatile

This elegant and contemporary light profile offers a seamless blend of style and functionality. Crafted from high-quality aluminium, it exudes a premium aesthetic while ensuring durability and longevity.

### Key Features:

**12V System:** Operates on a 12V system for safety and energy efficiency.

**White Diffuser:** Provides a soft, even, and glare-free illumination, creating a comfortable and inviting ambiance.

**Warm white Colour Temperature:** Offers a balanced and natural light output, ideal for a wide range of applications.

**Premium Input:** Includes high-quality components for reliable and long-lasting performance.

**Versatile Installation:** Suitable for various applications, including under-cabinet lighting, cove lighting, and accent lighting.

**Sleek Design:** The minimalist design seamlessly integrates into any modern decor.

### Benefits:

**Energy-Efficient:** Low voltage operation reduces energy consumption and operating costs.

**Long Lifespan:** Durable construction and high-quality components ensure years of reliable service.

**Easy Installation:** Simple and straightforward installation process.

**Versatile Applications:** Ideal for various residential and commercial settings.

**Stylish Aesthetics:** Adds a touch of sophistication and modernity to any space.

**Ideal for:**

**Kitchens:** Under-cabinet lighting, worktop illumination, and accent lighting.

**Bathrooms:** Mirror backlighting, vanity lighting, and ambient lighting.

**Living Rooms:** Cove lighting, feature wall illumination, and accent lighting.

**Retail Spaces:** Showcase lighting, display case illumination, and ambient lighting.

Elevate your space with the TAY II Aluminium Light Profile. Experience the perfect blend of style, performance, and energy efficiency.
