

Strike Plate & Screws for Ultra Slim Magnet Catch

Variant code: MC-YS001P

Ultra Slim Magnetic Catch is a compact, low-profile magnetic latch designed to provide secure door retention where installation space is limited. Offering a **3kg holding force**, this ultra-thin magnetic catch is ideal for cabinets, furniture and access panels requiring a discreet yet reliable closing solution.

Its slim design allows installation in tight spaces without compromising performance, making it particularly suitable for modern furniture and compact cabinetry. The magnetic catch works in conjunction with the supplied strike plate to hold doors firmly closed while allowing smooth, effortless opening when required.

Manufactured from high-quality materials, the catch delivers dependable long-term performance and is easy to install, making it an excellent choice for both new furniture production and replacement applications.

Product Features

- Ultra slim magnetic catch
- **3kg holding force**
- Compact, low-profile design
- Ideal for installations with limited space
- Includes matching strike plate
- Smooth magnetic closing action
- Durable construction
