

WESCO Bin for Hinged Door to Suit 400mm Cabinet – 2 x 26L Bins – Grey

Variant code: ABS757811.85

The Big Bio Double 52L is mounted to the base of the cabinet and is suitable for cabinet widths 400mm and wider. The Bio Double has two 26L capacity bin inserts that sit within a frame and are carried on high quality full extension ball bearing runners.

The Big Bio Double is designed to be used inside cabinets with a hinged door, both of the 26L compartments are perfect for separating and recycling household waste. They are made from plastic and are easily removable making waste disposal and cleaning a breeze. Both 26L bin compartments sit beneath an odour trap lid that sits across the top of the whole bin system, keeping any odours contained.

Operation: Using the Big Bio Double 52L is simple, the bin system is pulled out separately once the cabinet door has been opened. Using the plastic front panel the system is pulled out manually by hand to reveal both bin compartments.
