

Wesco – Traditionline Big Bio-Double 40DM | 64L | Alu Grey

Variant code: 785464-85

Compact in-cupboard recycling bin designed for use with kitchens with pull-out doors.

The Benefits

- The Big Bio Double has two bin inserts that sit within a frame and are carried on high quality full extension ball bearing runners
- The bins are fully removable to allow thorough cleaning
- Having a set of containers to suit different sorts of waste saves time spent sorting – which is a perfect solution for busy households
- The integrated bin sits neatly in kitchen units and removes unsightly, traditional free-standing bins from view
- Both bin compartments sit beneath an odour trap lid that sits across the top of the whole bin system, keeping any odours contained.

What's Included

2 x 32L bins – Includes runners and fixings
