LED Surface inc White Push-on Diffuser - 2000mm - Aluminium Profile

Variant code: LLP02400ALWT.2000

LED Surface inc White Push-on Diffuser - 2000mm - White Profile

This sleek and modern 2000mm LED surface mount features a high-quality white push-on diffuser, designed to evenly distribute light and create a soft, glare-free illumination. The diffuser is seamlessly integrated into an elegant aluminum profile, offering a durable and stylish solution for various applications.

Key Features:

2000mm Length: Provides ample coverage for a wide range of installations.

White Push-on Diffuser: Ensures even light distribution and minimizes glare.

White Profile: Offers robust construction and a sleek, contemporary aesthetic.

Easy Installation: The push-on diffuser design allows for quick and effortless assembly.

Versatile Application: Suitable for various commercial and residential settings, including under-cabinet lighting, cove lighting, and accent lighting.

Benefits:

Enhanced Aesthetics: The clean lines and minimalist design of the aluminum profile complement any modern decor.

Improved Visibility: The even light distribution provides excellent visibility and reduces eye strain.

Energy Efficiency: LED technology offers significant energy savings compared to traditional lighting solutions.

Long Lifespan: LEDs are known for their exceptional durability and long lifespan, minimizing maintenance costs.
