

XL Medium Bean Thumb latch – Pewter

Variant code: 33762

Traditionally used on a ledge and braced door, a thumb latch set is a decorative door latch with a thumb shaped lever. When the thumb shaped lever is pressed down this operates a thumb bar which passes through the door, this lifts the latch bar on the opposite side causing it to open.

- Our blacksmith thumb latches are hammered into shape from mild steel using the traditional manufacturing method of an anvil and fire.
- Thumb latches are usually used in conjunction with a tee hinge on traditional plank doors.
- Maximum door thickness: 75mm.
- Supplied with matching SS wood screws.

Our pewter patina finish is forged from a durable base of steel and is a fine example of how our unique manufacturing techniques add further detail to the natural charm of metals. The process by which the contrasting textures of this finish are created results in a rich appearance that sits well in characterful, rustic homes but also offers a contemporary alternative in more modern settings.
