Zipbolt Onedrive Connector - 6 x 43mm

Variant code: QT15.200

This connector is designed for CNC machines as it only requires vertical machining to create the correct cut outs. The Zipbolt Onedrive is a unique one piece connector, designed for the flat packed furniture industry.

The Zipbolt Onedrive features:

- a new concept of being able to screw furniture together by it unique design of the screw thread that is hidden inside the metal housing.
- as it tensions, the 12mm coarse thread exits the housing and pulls the joint firmly together
- a very strong hold without damaging the face of the furniture
